

I am communicating on behalf of the New Jersey "Do Not Call" law, I am the mother of three small children and am limited for time as it is, I am quite happy not to be disturbed at all hours with unsolicited calls from telemarketers. If I have done business with someone within the last 18 months and wish to do business with them again, I will call them, I don't need them to call me and remind me. I like the law the way it stands and appreciate its protection. Thank you for your time.
